CAT GUARDIAN™

PATENT PENDING

Hale Security Pet Door's innovative LED sensor **CAT GUARDIAN** is the "purrfect" compliment to their quality pet doors. It's the ideal way to keep your indoor cats safe and secure while letting your dogs have the freedom to come and go as they please through the pet door.

This AC powered (optional battery backup), highly effective unit sets off an alarm when a cat attempts to exit the pet door. **No magnets - no collars - no shock.** It is also the perfect solution for keeping raccoons and other unwanted animals out.

The **CAT GUARDIAN** securely attaches to the frame of the pet door and can be retrofitted to most Hale Pet Doors or added to our line of security barriers.

- Safely contains cats to the indoors and keeps unwanted critters outdoors
- Highly effective alarm with on/off switch and LED power indicator light
- Switch to allow for optional alarm delay
- Fits snugly into the pet door frame
- Adapts to most Hale Pet Door™ products
