

**NEW!!!**

# SIMPLE SECURITY BARRIER™

PATENT PENDING

When extra security is needed in a smaller, unobtrusive way, the **Hale Security Pet Door® SIMPLE SECURITY BARRIER™** is the answer. Make human access through your pet door more difficult. This simple yet effective barrier is mounted to the ground outside of your pet door. It can be used alone or with a dog house, planter, or other exterior decorative feature.

The innovative design with its limited space and angle of entrance makes it extremely difficult for a person to gain access while your pet can easily fit between the barrier and the house wall.

- Attractive and effective – Available in three sizes to fit the entire range of eleven Hale Pet Door™ sizes
- Safe for your pets – **no magnets – no collars – no shocks**
- Made of 16 gauge steel for durability and safety
- Highly effective at keeping unwanted animals (two-legged) from gaining access to your home

Side View

Front View

The security barrier should be centered directly in front of the pet door. Distance from the wall varies depending on the size of the pet, the size of the pet door, and the size of the barrier. Take care, however, to install the barrier close enough to the wall to make it more difficult for a human to fit between the barrier and the wall. (Photo for suggested placement purposes only. Method of securing barrier not shown as it varies depending on type of base material.)
