Bill Hale
Rocket and Diablo

Dear Fellow Pet Lover,
For more than 20 years in the pet door industry it has been my goal to bring you the highest quality, most energy efficient pet door on the market.

At Hale Pet Door™, all of my employees and I strive to offer our customers superior quality, unsurpassed selection and unparalleled customer service. Over the years, we have built doors for all types of pets: cats, dogs, pot-bellied pigs, and even monkeys. Focusing on using the best possible materials and uncompromising workmanship, we continually respond to our customers' feedback. Therefore, our research and development team is constantly aiming to improve our existing products and develop new ideas and applications to meet your expectations and the needs of your pet.

No matter which of our models you choose, you will be joining the list of millions of satisfied customers worldwide who are pleased with the freedom a Hale Pet Door offers you and your "best friend." Ask any one of our many repeat customers, and they will tell you that a Hale Pet Door is one of the best investments you can make for the health and happiness of your pet.

As one happy customer wrote, *"Since then (installation of a Hale Pet Door), life has fewer ups and downs...or rather, fewer ins and outs (that I had to assist with, anyhow!). The dogs are delighted at their empowerment, and sometimes choose the 'six of one, half dozen of the other' option by laying in the house with their noses out the dog flap. Even dogs like the best of both worlds!"*

Why not give your pet the opportunity to enjoy the "best of both worlds?" Please visit our website for a list of our toll free numbers and locations nearest you.

Door Model
Self framing & self supporting.
Ideal for use in:
• Wood Doors
• Metal Doors
• French Doors

Fits 1¼" to 2" doors.
Adaptation available for thinner or thicker doors.

Wall Model
Our most popular self framing and self supporting model. Standard 10" tunnel designed to fit 2" to 10" walls. Oversize 16" tunnel available. Longer tunnels can be custom ordered.

Choose the correct size for your pet!

All sizes available in:
Brushed Aluminum,
Dark Bronze, White
or Arizona Beige.

www.halepetdoor.com

Standard and Omni Panel Models*
Fits almost any sliding door. Oversize model available where extra height is needed.

Standard – Heavy frame cut to fit sliding door. Replaces glass door lock. Screws into door frame.

Omni – Slim panel with expandable top section that applies pressure vertically to hold panel in place with no screws.

Screen Model
Design modified especially for screen doors. Single flap with no security cover.

Vertical and Horizontal Window Models*

Vertical Model
Horizontal design allows it to fit windows that open and close vertically. Can be used for single or double hung.

Horizontal Model
Vertical design to fit windows that slide horizontally.

Both models feature dual pane glass and double flap pet door.

*All glass used in Hale Pet Door panel or window models is fully tempered and insulated for safety and efficiency.

Quality doors designed to last!

Choose a different interior and exterior frame color to coordinate with your home's decor.

Highest Quality

Extruded aluminum frame is more durable than other plastic or pressed metal frames. Won't fade, crack, break, rust or discolor walls.

Safety

Soft flexible PVC vinyl flaps allow for easy pet access. Carpeted tunnel in wall models protects pet from heat and cold. No exposed screws to harm pet.

Ease of Installation

Self framing style makes it easy to install for do-it-yourselfers. Free factory support and technical advice is available if needed. Professional installation is offered in many areas.

Security

Impact resistant security cover with positive action pin lock.

Choice and Selection

11 standard sizes – custom sizes available
10 different models – something for every application
4 different frame colors – to coordinate with any decor
5 cover choices - to coordinate with our frame colors
3 carpet choices in wall model

Efficiency and Protection

Double flaps, nylon pile weather stripping, multiple alnico magnets for increased energy efficiency and to safeguard against wind, insect intrusion, and unwanted animals.

Warranty

Backed by a limited no fault 5-year prorated warranty.

Hale also offers models that are placed directly in the glass for sliding door and single lite French door applications. These applications will require professional installation which is only available in certain areas.
